

IV NUTRIENTS

Amino Acids: form the building blocks of proteins, involved in growth and development, healing and repair, normal digestion, and providing energy for your body

Glutamine, Ornithine, Arginine, Lysine, Citrulline, L-Carnitine

Electrolytes/Trace Minerals: essential blend of minerals, can help reverse the effects of dehydration, remove toxins and replenish vitamins

Magnesium chloride, zinc sulfate, manganese sulfate, copper gluconate, sodium selenite

B-Complex: helps keep skin and blood cells healthy and convert nutrients into energy

Thiamine (B1), Riboflavin (B2), Niacin B3), Dexpantenol (B5), Pyridoxine (B6)

Magnesium Chloride: can help improve immunity, decrease risk of developing migraines, improve relaxation and more

Calcium Chloride: helps promote healthy bones and the normal functioning of muscles, nerves and cells in the body

Vitamin C: can act as an antioxidant that may help protect cells from free-radical damage, absorb iron, create collagen and boost immunity. Also useful in high doses for various illnesses

Ascorbic acid

B-12: Supports a healthy nervous system, boosts mood and energy levels, helps prevent memory loss, can decrease risk of heart disease, can help aid in weight loss

Methylcobalamin, hydroxocobalamin

Zinc Chloride: used to help reduce the duration of illnesses, prevent infection and speed up the body's healing process

Glutathione: the "Master Antioxidant." Helps slow the aging process, brightens skin, increases the synthesis of proteins, and generates and repairs cells. Glutathione helps prevent cancer, strengthens the immune system, and reduces muscle and joint discomfort. Can also help reduce the effects of stress, boost energy, and improve quality of sleep.

L-Carnitine: Amino acid that plays a critical role in building muscle, losing weight, and increasing overall stamina

IV PEPTIDES

Glycyrrhizic Acid: anti-inflammatory, antioxidant, anti-viral, stimulates immune system. Commonly used therapeutically in gastritis, bronchitis, hepatitis, & jaundice.

Thymosis alpha-1: antioxidant, anti-viral, anti-tumor, upregulates immune system, beneficial in Lyme

Aminosyn II: promotes the building, healing, and repair of muscle tissue, helps restore balance of neurotransmitters

Thymosis beta-4: anti-inflammatory, stimulates wound healing and tissue repair

Methylene blue: improves mitochondrial function and cellular metabolism, beneficial in Alzheimer's

Reboot

Ease hangover symptoms of headache, nausea and dehydration

Ondansetron for nausea, electrolytes, B-complex vitamins

\$159 OR 3/\$429

Glutathione

Powerful antioxidant that helps protect cells from damage caused by free radicals

\$149 OR 3/\$399

NAD+

Improve cell function, increase energy & metabolism, boost immune system, detox

Nicotinamide adenine dinucleotide

250MG: \$250 OR 3/\$669

500MG: \$500 OR 3/\$1349

ADD-ONS \$25

Ondansetron (Zofran)

Medication that prevents and treats nausea and vomiting

Toradol

Nonsteroidal anti-inflammatory that helps decrease swelling, pain, and fever

PEPTIDE INFUSIONS

Immunity Plus

Peptides provide added anti-inflammatory, anti-viral, anti-oxidant, and immune boosting properties. Also used therapeutically in autoimmune disorders and Lyme disease.

Glycyrrhizic acid, glutathione, vitamin C, electrolytes, B-complex vitamins, vitamin B-12, can add **thymosin alpha-1** (TA-1) for added benefit

\$419 OR 3/\$1129

WITH TA-1: \$489 OR 3/\$1329

Performance & Recovery Plus

Peptides enhance performance & tissue repair, increase metabolism, decrease muscle loss & inflammation, restore neurotransmitters

Aminosyn II, B-complex vitamins, amino acids, vitamin B-12, vitamin C, can add **thymosin beta-4** (TB-4) for added benefit

\$389 OR 3/\$1049

WITH TB-4: \$459 OR 3/\$1249

Quench Plus

Hydrate while peptides enhance protein synthesis, improve wound healing, & help restore chemical balance in the brain

Aminosyn II, B-complex vitamins, vitamin B-12, vitamin C, electrolytes

\$369 OR 3/\$999

Rewind

Peptides improve mitochondrial function and cellular metabolism, Methylene blue has shown to attenuate the formations of amyloid plaques and neurofibrillary tangles to help in Alzheimer's disease

Methylene blue, NAD+, glutathione

\$419 OR 3/\$1129
